PROJECTS PROFILE

Project Name: Sunrise Emergency Care

Technologies: MySQL, Java, Spring MVC , Hibernate.

Roles: Developer.

Responsibilities: Development.

Description:

Sunrise Emergency Care is a comprehensive emergency department information system solution that is proven to help increase throughput and favorably impact clinical and financial outcomes.

NEED:

As patients move from one environment to another, Sunrise Emergency Care tracks the vital processes related to the current orders, medications, results and documents to help ensure safety at every stage and handoff.

Sunrise is an Open platform, interacting seamlessly with other providers, other systems, and third-party apps.

Shows order status at a glance. Hover over a name for a quick view of status and results.

You control your destiny with Sunrise Emergency Care, by revising or adding rules and protocols real-time

Project Name: ECHO Solution

Technologies: MySQL, Java, Spring MVC,
Hibernate

Roles: Developer.

Responsibilities: Development.

Description:

Payers, employers, providers and members benefit from the association with ECHO, realizing dramatic reductions in the costs of fulfilment and customer service. This is achieved through a unique, flexible and efficient process combining consolidation of provider payments and member communications with electronic settlement. ECHO's services comply with ERISA (Employee Retirement Income Security Act), HIPAA (Health Insurance Portability and Accountability Act), CORE (Committee on Operating Rules for Information Exchange) and Taft-Hartley regulations.
